

- Thank you for purchasing a Cannacage! Please follow the QR code link to the set-up youtube video.
- The pieces are fragile, but should resist moderate amounts of flex. An extra of each clip has been included in your kit.
- Assembly of the base is 2 pieces, and should be followed by clipping together the middle ring.
- Uniformly orient each (B) and (C) piece so that they follow the form of the cage. The opening of B should be facing the interior of the square in a downward position.
- Diagonal support (5) is slightly longer than middle support (4)
